

RFID COMPANION™

Complete Portable RFID System Ready to Use Right Out of the Box

RFID COMPANION™ meets all military DoD shipping requirements according to the US DoD Suppliers' Passive RFID Information Guide. You don't need to change your current barcode labeling system or your existing workflow processes – if you only need to verify a RFID tag to the shipping container, use this verifier. It also generates a report for double verification prior to sending to the WAWF. Optional modules available that can encode and read RFID tags. RFID cannot get any easier than this!

Low-cost RFID System in a Box
Reads, Verifies
Free Training & Support
Versatile, Portable, Scalable

RFID COMPANION™ Software
Built specifically to meet military DoD standards
One year free support
Upgrades available
